Gokulakrishnan Muthusamy

Results-driven professional with 5+ years of experience in Data Science, AI/ML, Generative AI, and advanced analytics. Highly skilled in transforming complex data into actionable insights through strategic financial modeling, risk forecasting, stakeholder alignment, and agile product roadmaps to drive revenue growth and operational efficiency.

Over the past five years, have built deep expertise in mentoring and delivering high-impact training across Python for fintech automation, Data Analytics for BI dashboards, AI/ML for predictive wealth modeling and stock analysis, Generative AI for scenario planning, DSA for algorithmic efficiency, software testing for robust quality assurance, and Agile/Scrum for iterative delivery. Successfully guided 200+ professionals—ranging from students to senior architects in Fortune 500 organizations—toward mastery in Generative AI, data analytics, and Python full-stack development, enabling accelerated career growth in remote, high-stakes environments.

EXPERIENCE

Maharaja Institute of Technology, Mysore — *Founder (Jan 2026 - present)*

- Conducted **Generative AI placement training** for 60+ B.Tech CSE students, covering fundamentals of Generative AI through to building full-stack GenAI platforms with hands-on, project-based learning.
- Delivered **Python Full-Stack placement training** for 70+ BCA students, focusing on Django and web development through classroom sessions with 90% practical, hands-on implementation.

Magizh Technologies — *Founder (Jan 2024 - present)*

- Founded and led a technology-driven training and consulting organization focused on industry-ready upskilling in **Python, Data Science, AI/ML, and Generative AI**.
- Mentored **300+ learners**, enabling job-ready competencies through project-based learning, assessments, and career-oriented guidance.
- Oversaw technical strategy, curriculum design, instructor mentoring, and quality assurance across training programs.

IIT Madras, Chennai — *Academic Mentor & Examiner(Jan 2021 - present)*

- Trained **100+ students** enrolled in the **BS Degree Program**, focusing on strong foundations in computer science and applied analytics.
- Served as **Viva Examiner**, evaluating conceptual

TECHNICAL SKILLS

Architectures: MVC, RBAC, Web & Client-Server Applications

Skills: Pandas, NumPy, Matplotlib, Celery, Redis, Asynchronous jobs, Websockets, Webhook.

Languages: Python, Flask, FastAPI, VueJS, SQL, PLSQL, Django, Java, C++, JavaScript, React, React Native, Shell Scripting, Ajax, HTML/CSS, Bootstrap, Express.js, Node.js, Golang

CI/CD: Docker, Azure DevOps, GitHub, Pipelines, GitHub Actions, Grafana, etc.

Databases: Oracle DB, PostgreSQL, SQLite3, MySQL Server, ORM, SQLAlchemy.

Other: Data Structures and Algorithms, OOPS, Functional Programming, Linux Shell, Pytest, Test automation, Selenium, Kafka, RabbitMQ, Playwright, n8n, Make.com, Zapier.

EDUCATION

Indian Institute of Technology, Madras — *B.S*
(Data Science and Applications) Jan 2021 - Present (8.5/10)

Anna University, Chennai — *B.E* (Mechanical Engineering) August 2016 - June 2021 (7.9/10)

AWARDS AND CERTIFICATION

- Microsoft Azure - AI-900,PL-900
- IIT Madras- Diploma in Data

understanding, problem-solving ability, and technical rigor.

- Acted as a **DSA Mentor** for undergraduate and postgraduate learners, emphasizing algorithmic efficiency and scalable problem-solving.

VIT, Vellore, Tamil Nadu — *Guest Professor, AI & Analytics (*Dec 2024 – Sept 2025)

- Taught **Statistics and Machine Learning using Python** across **two academic semesters.**
- Trained **70 students** through a structured blend of theory, coding labs, assignments, and applied case studies.
- Focused on building strong statistical intuition, ML fundamentals, and real-world implementation skills.

NSE Academy — *Visiting Trainer (*July 2024)

- Conducted a **2-month, hands-on training program** on **Artificial Intelligence and its applications in Finance.**
- Covered practical AI use cases including **risk analysis, predictive modeling, market insights, and financial decision support systems.**
- Emphasized industry relevance, implementation workflows, and responsible AI practices in fintech contexts.

Shree Eshwar College of Engineering — *Corporate / Academic Trainer*

- Led **5-day intensive bootcamps** on **Python and Pandas**, focused on data manipulation, analysis, and visualization.
- Enabled participants to apply concepts to **real-world datasets and problem statements**, strengthening employability and practical skills.

Science and Programming

- Best Flask-VueJS project in the batch

- Academic Mentor for Data Structures and Algorithms

- Structuring Machine Learning Projects - Coursera Certification

- Neural Networks and Deep Learning - Coursera

OTHER ROLES & RESPONSIBILITIES:

- Founder and Head : Techno Cultural fest(IITM BS)
- Academic Affairs Coordinator (IITM BS program - 8 months)
- Secretary of Nilgiri House (8 months)
